

Gumstix Raspberry Pi CM4 Uprev Product datasheet

PKG900000001454

USD30.00

Product Features

Inter-board connector	
Board-To-Board Connector	2 x 100-pin Hirose DF40 Connectors
General	
Raspberry Pi Compatible	

The GUMSTIX RASPBERRY PI CM4 UPREV board allows the Raspberry Pi CM4 COM to be used on existing CM3 boards. The CM4's GPIOs, communications signals, and power pins are re-routed onto a SODIMM edge connection to match the pin-out of the CM3.

FEATURES INCLUDE: * Raspberry Pi CM3-compatible SODIMM edge connection * Power indicator LED

Mating connector

2 × Stacking Board Connector, DF40 Series, Receptacle, 0.4 mm, 100, Surface Mount

What's included

1 × Raspberry Pi CM4 to CM3
